VEHI Proposed Health Rates for FY27

On Tuesday, October 21, the VEHI Board of Directors authorized the management team to file FY27 premium rates for our health benefits program with the Vermont Department of Financial Regulation (DFR).

The proposed **average premium increase in FY27** for active employees and their dependents is **7.3 percent**. The rates will be filed with DFR by October 31, and a formal decision on this filing is expected from DFR in January.

This proposed, single-digit filing, the first since FY23, is largely the result of a combination of price- and cost-control actions by the Vermont Legislature, state regulators at the Green Mountain Care Board, and VEHI.
