RE: **VEHI Dental Program Contribution Renewal for FY 21**

Date: March 2020

VEHI has completed its dental program renewal process for the 2020-21 school year. Due to our continued strong financial position of the program, effective July 1, 2020, there will be **no increase** in dental rates.

IMPORTANT: Because individual school districts' dental plans are experience rated and have variances in benefits, your specific rate sheet was emailed directly to business managers in January 2020.

Below is information that explains how dental program monies collected by VEHI are allocated on behalf of its members.

Please contact VEHI Trust Administrators Bobby-Jo Salls (bobbyjo@vsbit.org) or Mark Hage (mhage@vtnea.org), with questions or concerns about this memorandum or any of our programs.
